MDSCM Program Overview

If you want to become a manager and an expert, who is highly capable to design and implement competitive supply chains, then the Master Diploma in Supply Chain Management (MDSCM) is the right program for you. It is offered online, and it is designed to produce professionals with a mastery of best practices. On completion of this supply chain diploma,

- You participate in strategic management of the supply chain within a multi-disciplinary environment.
- You integrate your vast knowledge of the supply chain and prove yourselves as problem solvers.
- You intellectually manage the supply chains in organizations, where critical shortages exist at all levels.

Program Structure

Supply chain management diploma is a 15 credit hours qualification. It comprises of total 5 courses, which are divided into two semesters. After the students have acquired theoretical knowledge, they prepare a real world project to implement theory into practice.

Accreditation

- MDSCM is awarded by AIMS - a CPD accredited and UKRLP registered institute. CPD accreditation assures that AIMS' practical and methodical approach is focused to improve professional development.
- MDSCM Total Qualification Time (TQT) is 270 hours and it is designed as per Ofqual Level-5 standards of Regulated Qualifications Framework (RQF).
- 15 credit hours of MDPM may be transferred to MBA in Supply Chain Management program for further studies.

At the end of supply chain management diploma, students are required to design a supply chain process for an organization. It examines their knowledge, skills and capabilities. In the project, students:

- ▶ Prepare & configure supply chain using SCOR Model.
- ▶ Prove themselves as problem solvers.

Why Supply Chain Management?

Supply chain operations are becoming more complex. Successful companies rely on the skills of professionals to keep their goods and services flowing to the marketplace quickly, efficiently, and as cost-effectively as possible. It enables organizations to build a system to deliver products faster, better, and cheaper. Today, supply chain management is the backbone of organizations, and the market is looking to fill 1.5 million jobs (or 285,000 per year) by 2018.

Our Students Say!

Studying with AIMS is like a dream come true, because it gives me a perfect opportunity to learn exactly what I wanted to pursue. Study materials designed for the diploma in supply chain management are lively. They are not only easy to understand, but also industry experienced, so we can learn from experts' amazing experiences right away. I studied the program with convenience, without the need to attend classes in person. The online lectures and study manuals are great, and the assignment schedule helped me to continuously keep track of my studies.
